

SKINCARE CONCERNS

Instant Freshness
Instant Cooling and Soothing
Anti-Blemish
Anti-Swelling

SKIN BENEFITS OF LOW TEMPERATURE

Cool temperatures can help calm inflammation and control pigmentation to brighten the skin. Cold therapy shrinks blood vessels and causes the muscles of the face to constrict. This may cause your skin to retract briefly and create a unique workout for the structure of the face while reducing swelling, dark circles, and patches.

KEY INGREDIENTS

GLACIER CLAY

Glacier clay is sourced from a natural deposit containing more than 60 nourishing minerals including magnesium, copper, sulfur, silver, calcium, sodium, potassium and iron. These minerals promote anti-aging, help skin retain moisture, and help form collagen resulting in radiant skin. They also nourish the skin to help support healthy cellular function including cell regeneration and moisture retention. Glacier clay absorbs toxins and excess sebum and naturally exfoliates dead skin. Raw glacier clay powder is also preservative free and contains natural biota that supports a healthy skin microbiome.

XYLITOL

Xylitol is naturally an excellent ingredient for cooling skin for soothing sensation. Unlike other ingredients that merely cause a cooling sensation, Xylitol causes an endothermic reaction when it is dissolved into water that cause it to absorb heat and actually cool the skin by 2-5.4 F (1-3 C). Xylitol also supports fighting bacterial skin infection and helping clear up irritated skin. Xylitol helps boost skin hydration by enhancing the skin's natural levels of hyaluronic acid. This contributes to skin softness and protects the skin's natural barrier function. Xylitol also encourages the natural process of keratinocytes (skin cells) as they develop into the upper layers of the skin and helps control damage that may derail the skin's natural growth processes.

*ORGANIC GOTU KOLA (USDA Certified)

Organic Gotu Kola (*Centella asiatica*), a well-known scar remedy, repairs and reduces scarring. It treats acne and calms sensitive skin while healing scarred tissue by regenerating connecting tissue and by enhancing the synthesis of collagen. It promotes the growth of new skin, gently closing and repairing even lesions and skin ulcers as well as helps to increase blood flow to wounds, reduce the formation of excess scar tissue, and improve skin elasticity. It reduces superficial and deep wrinkles, firming up the skin by increasing the function and structural integrity of the collagen matrix and support the basic "glue" that holds our cells together.

KEY INGREDIENTS

*ORGANIC ELECTROLYTES (USDA Certified)

Organic Electrolytes from coconut water help restore skin moisture and help prevent dehydration by restoring and drawing water into skin cells. These electrolytes provide a dramatic improvement of many adverse skin conditions (dryness, itchy patches, dark circles, fine lines). Also, electrolytes naturally moisturize without adding excess oil and help balance the skin's natural moisture and pH levels. They are a natural skin solution for the ultimate skin moisture. Electrolytes also remove toxins and excess oils to help reduce inflammation and breakouts. A natural source of cytokines in coconut water, proteins that promote anti-aging by supporting the skin's natural repair cycle in the wake of damage from the sun or environmental factors such as pollution.

INGREDIENTS

Potassium Alginate, Algin, *Oryza Sativa (Rice) Powder, Sodium Hyaluronate, *Cocos Nucifera (Coconut) Fruit Powder, Glacial Clay, Glucose, *Salix Alba (Willow) Bark Extract, *Mentha Viridis (Spearmint) Leaf, Xylitol, *Centella Asiatica (Guto Kola) Extract, Calcium Sulfate, Diatomaceous Earth, Sodium Chloride, Magnesium Sulfate, Potassium Chloride. ***Certified Organic Ingredients.**

HOW TO USE

Mix 1 1/2 scoops of powder with 1 scoop of water. (Adjust water amount to get desired consistency.) Mix quickly and spread evenly over face and neck. After 15-20 minutes peel off to remove.
