KEY INGREDIENTS

*Organic Goji Berry
(Lycium Barbarum) Powder

Goji provides high levels of antioxidants and nutrients. It contains a high amount of Vitamin C, which is known to brighten, firm, and protect the skin from environmental stressors. Vitamin C is known to encourage collagen production in the skin to maintain the skin's elasticity and aid in healing. This helps your skin stay supple, smooth and firm. Goji is also rich in flavonoids like beta-carotene, zeaxanthin, lutein, lycopene, cryptoxanthin, and xanthophyll. These protect and are known to help maintain a healthy glow in the skin. Though each has different action, they all can help firm, tighten, hydrate, and plump the appearance of your skin.

*Organic Pomegranate Powder

Pomegranate has antioxidant potency about three times greater than red wine or green tea. This helps facilitate skin repair by promoting dermis and epidermis regeneration and may halt signs of skin aging. Pomegranate stimulates proliferation of keratinocytes, the cells that form the outermost layer of your skin. The increase in the number of these cells enables your skin to repair itself better. This helps provide you with smooth and youthful skin and extends the life of the cells that are involved in the production of collagen and elastin. Collagen and elastin pump up your skin and render it supple, thus keeping it youthful and minimizing the occurrence of wrinkles.
