- *Helps speed up the healing process.
- *Minimizes skin irritation, rashes, inflammation, and redness.

KEY INGREDIENTS

Grape Seed Extract

Grape Seed Extract can reduce the effects of harmful UV, helps dermal healing, reduces redness and swelling after intensive treatments, and prevents cell damage caused by free radicals. It also provides essential omega 3 fatty acids to promote healthy skin. Grape seed extract contains a complex compound of flavonoids, Vitamin E, linoleic acid, and phenolic procyanidins. Proanthocyanidins and catechins are the powerful antioxidants in grape seeds that are 20 times more potent than Vitamin E and 50 times greater than Vitamin C.

Bromelain (Ananas Comosus) Extract (Pineapple Stem)

Extracted from Pineapple, Bromelain is known for its anti-inflammatory properties and is used as an effective anti-inflammatory and anti-swelling agent. Bromelain also helps reduce redness and is effective for debriding, a process in which damaged tissue is removed to help speed up the healing process. It makes a great natural alternative to taking pain-killing medications due to Bromelain's anti-inflammatory properties.

*Organic Lavender Flower Powder

It eliminates nervous tension, relieves pain, disinfects the skin, and inhibits the bacteria that cause skin infections. It helps to regulate over-excretion of sebum and can reduce the signs of scarring after acne has begun to heal. It has a calming scent which makes it an excellent tonic for the nerves and anxiety issues. It can also be helpful in treating migraines, headaches, depression, nervous tension and emotional stress.
