KEY INGREDIENTS

GREEN TEA

Green tea is a plant powerhouse packed with nourishing antioxidants that provide strong antioxidant protection against environmental stress toward reducing skin inflammation and irritation. Green Tea also delays the signs of sun damage, slack skin, age spots, fine lines, and wrinkles due to rich polyphenols that neutralize free radicals that accelerate the skin's aging process. Green tea provides nutrient-rich, balanced hydration with the unique water-burst that breaks upon application to deliver nourishment without leaving skin sticky or greasy. Green tea's gentle clarifying action helps unclog, purify, and flush out toxins in skin.
